

Future of Well-being in the Workplace

Leverage Emerging Trends and Data to Deliver Value

Julia Suzuki, CWP

Agenda

WHAT?

- Trends
- Emerging Trends

SO WHAT?

- Future of Work calls for a new kind of leader
- Opportunity to play more critical role by learning People Analytics and Artificial Intelligence (AI)

NOW WHAT?

- Profile of the future well-being leader
- Day in the life of well-being leader / professionals
- Call to Action: How to prepare for the future well-being leader / professionals

WHAT?

People might be **living longer**, but are **not healthier**

Source: Statista Research Department ([link](#))

According to Statista Research Department, the number of **centenarians in the United States** will greatly increase:

- 2060: 589,000 centenarians
- 2020: 92,000 centenarians

↑ **% Increase: 540%**
↑ **Annual Growth: 13.5%**

Source: U.S. Dept. of Health and Human Services ([link](#))

Surgeon general declared the **loneliness epidemic** presenting **threats to our health and well-being** and called for action:

- Health risks is as **deadly as smoking up to 15 cigarettes a day**
- Lack of social connection has **serious consequences**
- **1 in 2 adults** report experiencing **loneliness** in the U.S
- More than **1 in 6 adults** are **depressed** in the U.S.

How employees **feel** matter!

77%

Of employees have experienced **feelings of burnout** at work according to Deloitte's external workplace survey

Deloitte.

5

We now live in a **New Era of Artificial Intelligence (AI)**, also known as the **5th Industrial Revolution**

Valued skills:

- Speed
- Volume
- Efficiency

- Asking the right question
- Self-motivation and wellness
- Empowering

McKinsey
& Company

6

Implications to Future of Work

50%

Of **global population** needs **new skills** to meet shifts in demand driven by new technologies. By 2030, this figure may grow to as high as 90%.

Source: [link](#)

Millions

Of **workers globally** will need to **change occupations** by 2030.

Source: [link](#)

7

Implications to Future of Work

23%

- Of jobs are expected to change by 2027; **69 million new jobs** created while 83 million jobs eliminated. The fastest-growing roles are driven by **technology, sustainability** and digitization.

Source: [link](#)

40%

- Of all **working hours across industries** can be **impacted by AI**. This means that the work will be done very differently.

Source: [link](#)

8

SO WHAT?

Future of Workplace calls for 3 Things

New Kind of Leader who:

- Has the 'well-being starts with me' mentality
- Treats his/her/their own and teams' well-being as a business priority
- Creates psychologically safe environments in the workplace

Well-Being Measurement Mechanism that incorporates:

- **Self-perceived** health and well-being
- **Team** engagement and collaboration
- **Business** performance and impact
- **Customer** satisfaction and retention
- **Benchmark** (where we are today vs. industry standards or best practices)

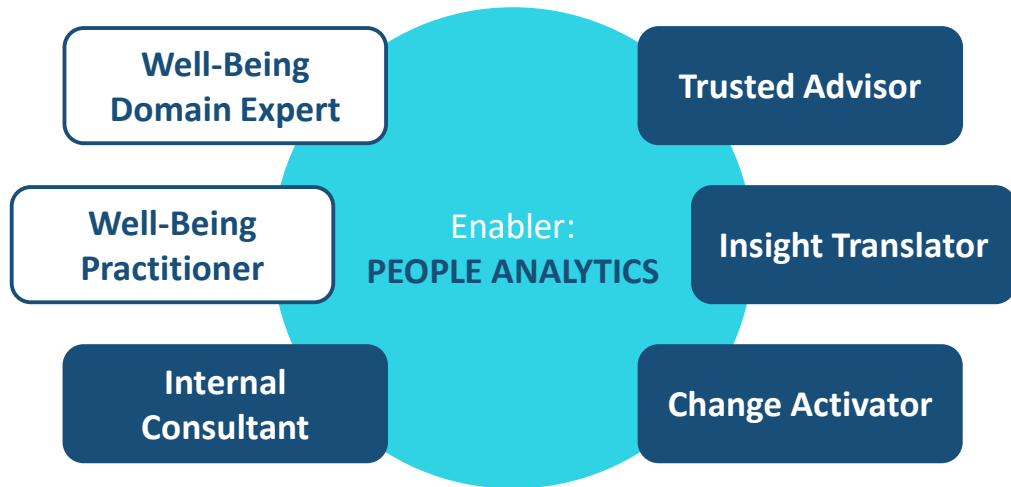

Systematic Change that

- Enables a culture of health and well-being in the workplace
- Challenges the status quo and reimagines new way of doing things
- Takes external factors into account that may influence the system such as society, ethics and bias

Profile of **Future-Ready Well-Being Leader**

Future Well-Being Professionals wear multiple hats and are Data-Driven

11

Adam Grant

Author, Organizational Psychology Professor

“Every **opinion** you hold at work is a **hypothesis** waiting to be tested.
And every **decision** you make is an **experiment** waiting to be run.”

12

What a leading expert in people analytics says about **Trusted Advisor**

Dr. Konstantin Tskhay
VP, Organizational Effectiveness

“It’s time for HR professionals to **embrace People Analytics.**”

“Support recommendations with data; learning analytics is a must to be a **Trusted Advisor.**”

TOP HAT

13

Trusted Advisor knows what matters to C-suite executives to get buy-in

WHAT MATTERS to C-Suite Executives

Chief Executive Officer
(CEO)

Company Valuation

Chief Human Resources Officer
(CHRO)

Retention & Labor Laws

Chief Well-Being Officer
(CWBO)

Employee Well-Being

Chief Strategy Officer
(CSO)

Revenue Growth

Chief Officer
(COO)

Efficiency & Productivity

Chief Financial Officer
(CFO)

Revenue & Cost

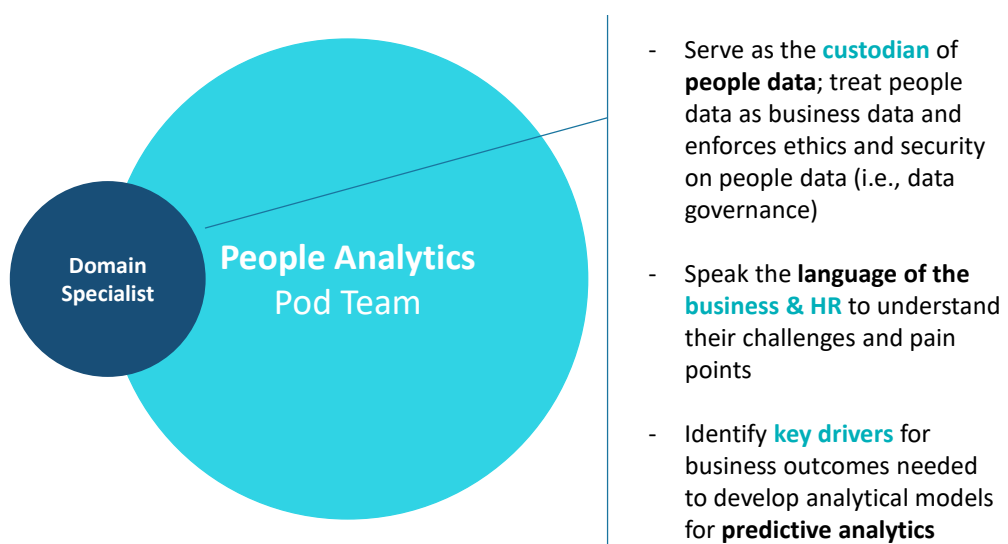

14

Imagine you are part of a **People Analytics Team**

15

Role and Responsibilities of **Domain Specialist**

16

Role and Responsibilities of “People” Insight Translator

- Translate **insights** generated from data and link to **business outcomes**
- Inform and **empower** key stakeholders to **make data-driven decisions** by providing clear and **actionable recommendations** based on the **data**
- Make key insights available to everyone to **inspire action**

17

What a leading expert in people analytics says about **Change Activator**

Kanwal Safdar

Senior Director, People Analytics

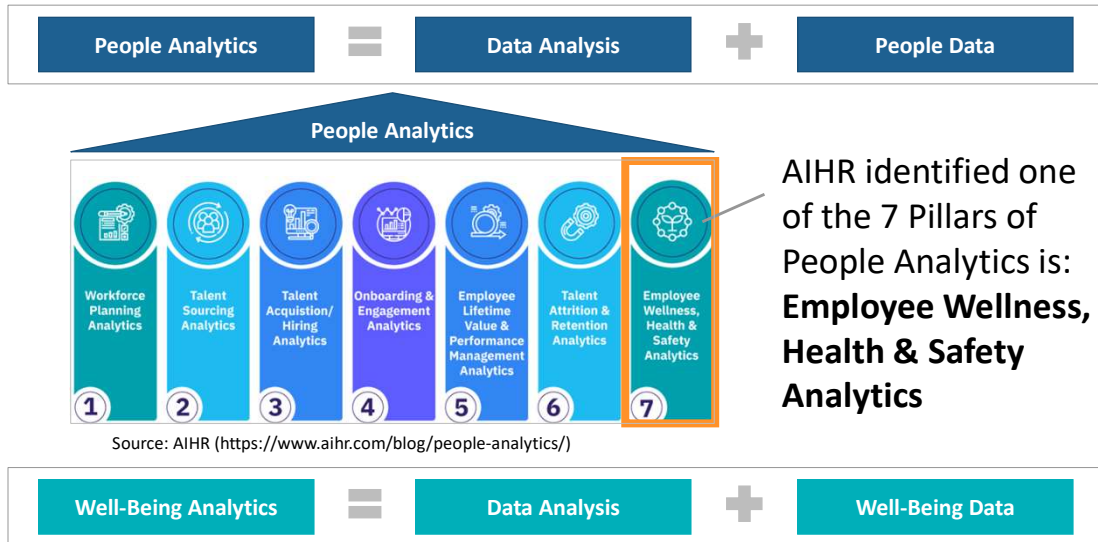

“The future should be **Actionable**.
Knowing is only part of the journey.

Show **early wins with ROI** to build a
pipeline of future work.”

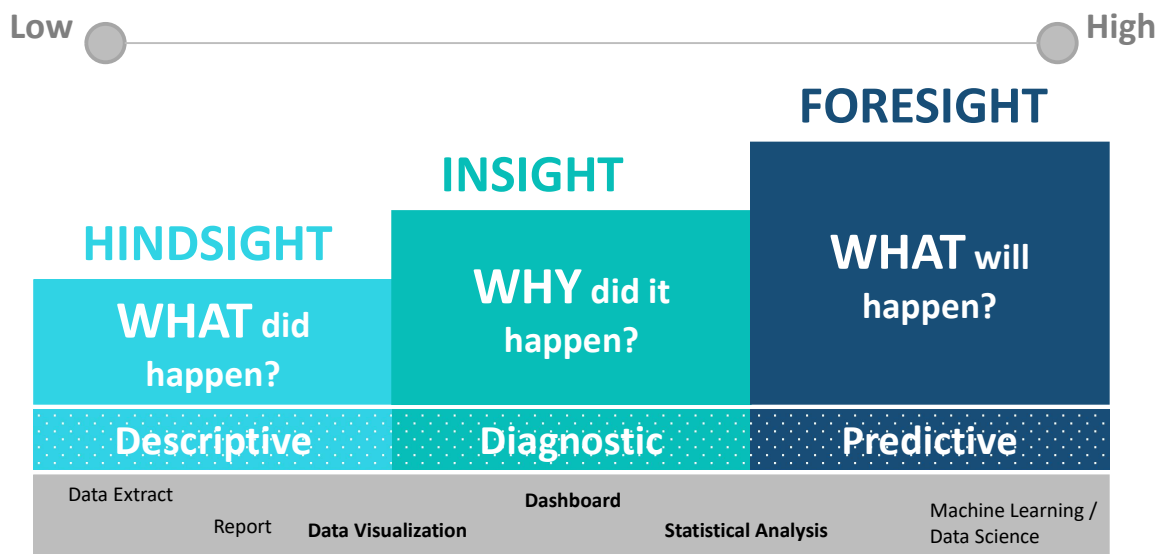

18

What is **People Analytics**? What is it to do with **Well-Being**?

19

PEOPLE Analytics Maturity

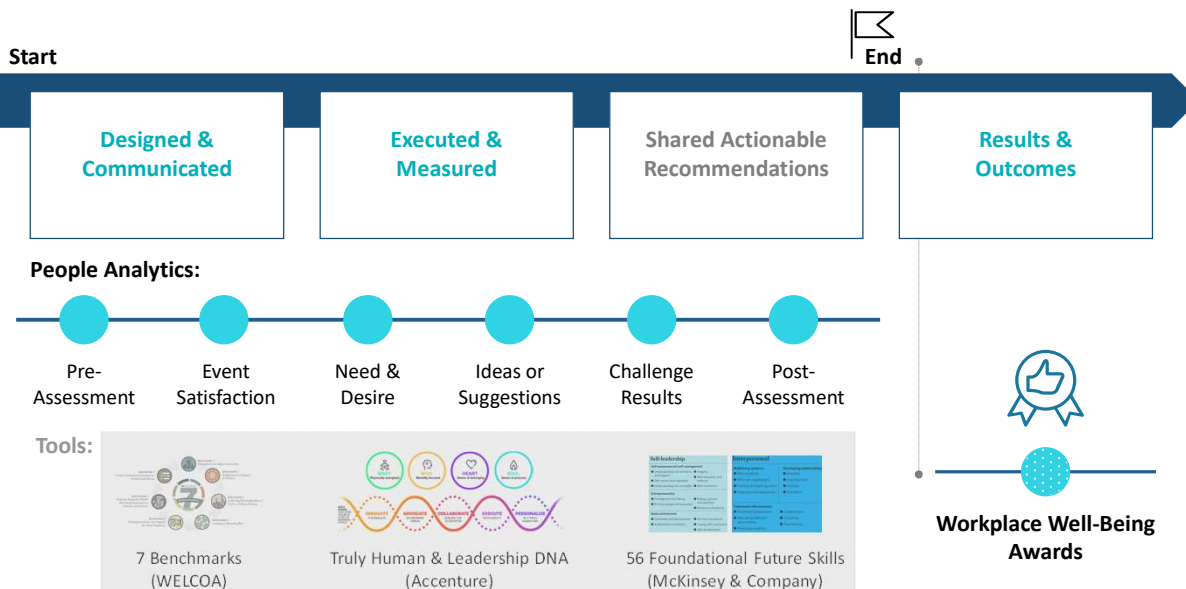

20

Case Study: Workplace Health & Well-Being Challenge

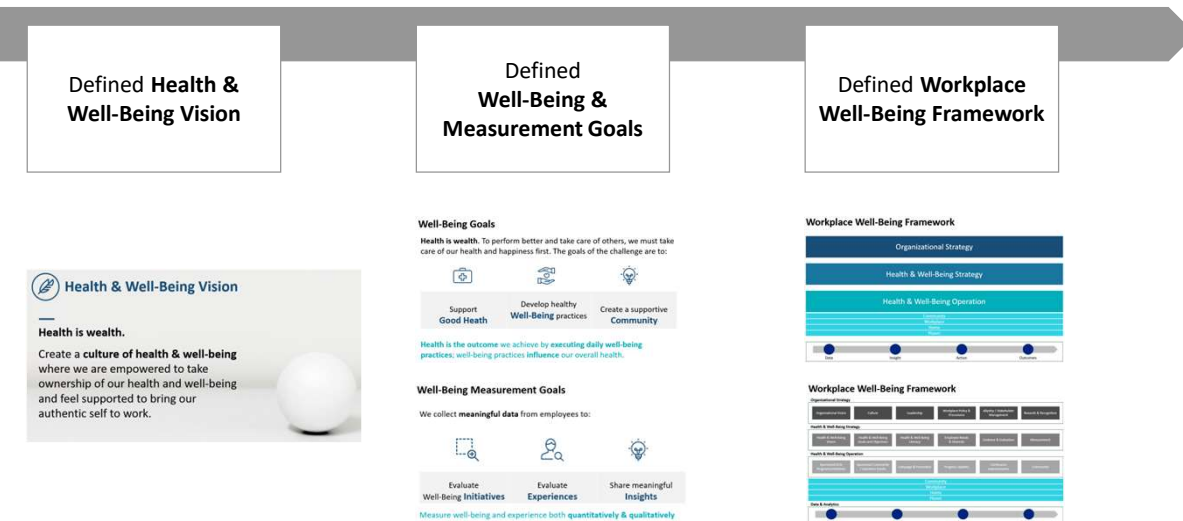

21

“Reimagine Well-Being Challenge” Process

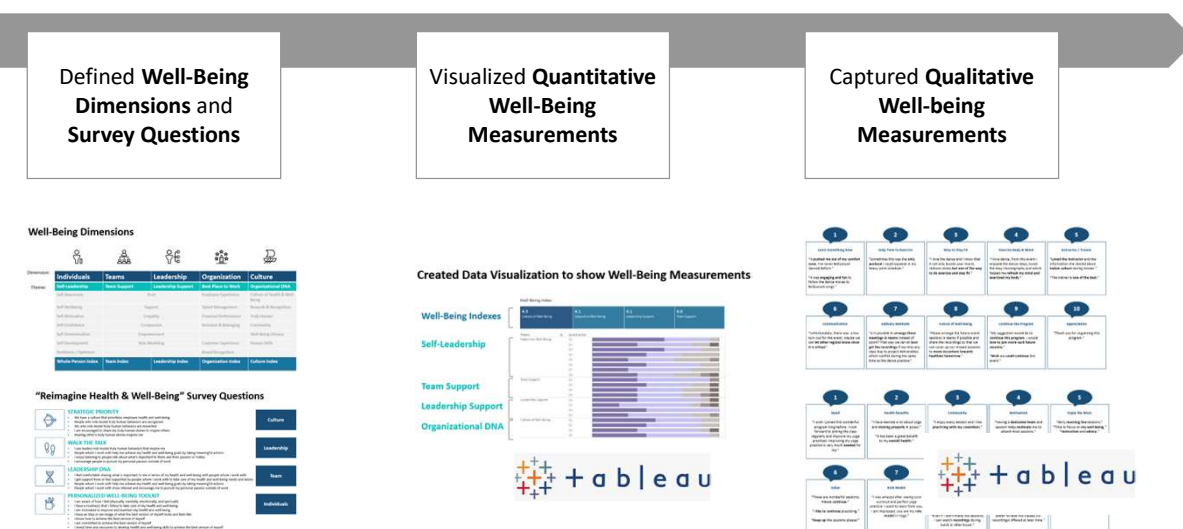

22

Designed the Reimagine Well-Being Challenge & Communicated to the Community

23

Executed Well-Being initiatives & Measured Outcomes

24

Resulted in receiving the Workplace Well-Being Awards

State-Level Workplace Awards

National-Level Workplace Award

- Michigan Awards
- Commandment Letter from the governor

25

Common Issue with Well-Being Data

Small Sample Data is biased, affecting the quality of insights

Image created with: Flyer Maker

Small Sample Size

Biased Data

Quality of Insights

26

Lessons Learned & Opportunities

In order to be successfully in **leading for well-being, Employee-Centric Approach** needs to be taken.

- 1 Leading for well-being must be a full-time job
- 2 Insights helps identify opportunities
- 3 Data must exist to generate insights

27

Employee-Centric Approach means to be Obsessed Over Employees

Jeff Bezos
Founder

employees

“Obsess over ~~customers~~. If we start to focus on ourselves instead of focusing on our ~~customers~~, that will be the beginning of the end.”

28

What Chat-GPT said about “Employee-Obsessed”

"Cultivating a thriving work environment requires more than just satisfied employees; it demands an unwavering dedication to becoming **employee obsessed**, where **their growth, well-being, and success** become the heartbeat of the organization."

29

Resource #1

World Wellbeing Movement & Wellbeing Research

The **World Wellbeing Movement** is a global coalition established in July 2022 with **goals** to:

- **Promote the measurement of wellbeing in companies** and
- **Make wellbeing a key pillar of the ‘S’** in Environmental, **Social**, and Government (ESG).

• **Wellbeing Research Centre** published research papers that describe **relationships** between:

- **Employee Wellbeing** and their **Business Outcomes** (recruitment, retention)
- **Employee Happiness** and **Customer Satisfaction**
- **Workplace Wellbeing** and **Organizational Financial Performance**

30

Hypothetical Use Case: Data-Driven Workplace Well-Being

31

Imagine we are back in Mar 2020

CNN health

Experts warn of urgent need for Covid-19 mental health research

By Amy Woodyatt, CNN
Updated 6:31 PM EDT, Wed April 15, 2020

America's mental health Covid-19 recovery needs to start now

Opinion by John R. Kasich and Henry Harbin
Published 5:09 PM EDT, Mon April 13, 2020

32

Problem Framing

Premises:

- We spend 1/3 of our lives (90,000 hours) at work over a lifetime.
- Workplace is the fifth leading cause of death in the United States.

Belief:

- **Prioritizing the health and well-being** of our employees is not only the **right thing to do**, but a **business imperative**.

External Data Points:

- **44 %** of employees worldwide said they experienced a lot of stress the previous day.
- **32%** of employees in the United State said they are engaged.

Assumptions:

- Everyone wants to feel healthy and fit to perform their best.
- When employees perform their best and do meaningful work, our business outcomes and customer satisfaction will improve.

33

Questions to address by Data

Coronavirus
(COVID-19)

1

What is the current state of well-being of our people?

2

What interventions are working and not working?

3

What opportunities and risks exist?

34

1

Data Visualization showed that Younger Employees are impacted by COVID-19 than Older Employees

2

Qualitative Data Analysis helped identified what's working and not working

Future of Well-Being

"Please arrange the future event sessions in teams if possible and share the recordings so that we can cover up our missed sessions to **move us towards healthier tomorrow.**"

Community

"I enjoy every session and I like **practicing with my coworkers.**"

"It created a great **community.** I look forward to participating in the future sessions."

Health Benefits

"I have learned a lot about **moving my body properly.**"

"It has been a great benefit to my **overall health.**"

Motivation

"Having a **dedicated team** and session helps **motivate** me to attend most sessions."

Barriers

"Offshore meetings prevented me from practicing."

"Sometimes this was the **only workout** I could squeeze in my heavy work schedule."

Recorded Videos

"I value the sessions and even like the **videos** when the instructor is not available."

"Even if I don't make live sessions, I can watch **recordings** during lunch or after hours."

Enjoyed the Most

"Early **morning live sessions.**"

"Time to focus on **my well-being.**"

"**Instruction and advice.**"

"Casual approach, try something new, consistent schedule."

"Variety and attention to **individual's needs.**"

Well-Being Indexes

Well-Being Index

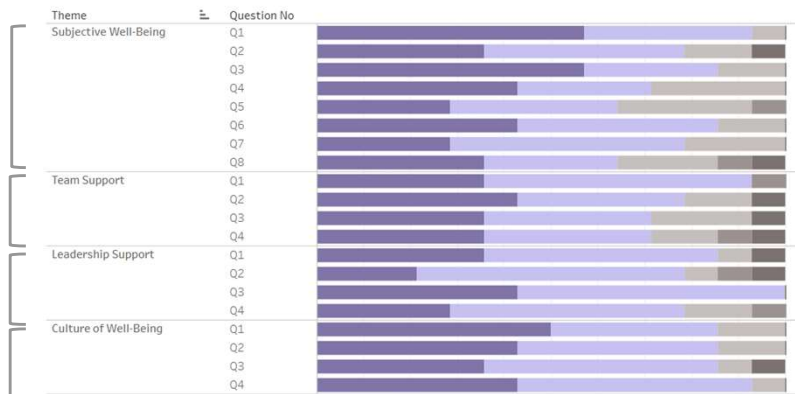

Self-Leadership

Team Support

Leadership Support

Organizational DNA

39

Lessons Learned & Opportunities

It requires **resources** (time & efforts) to develop a comprehensive end-to-end assessment solution.

1

Off-the-shell solution can expedite launch process

2

Turning data into action can be accelerated

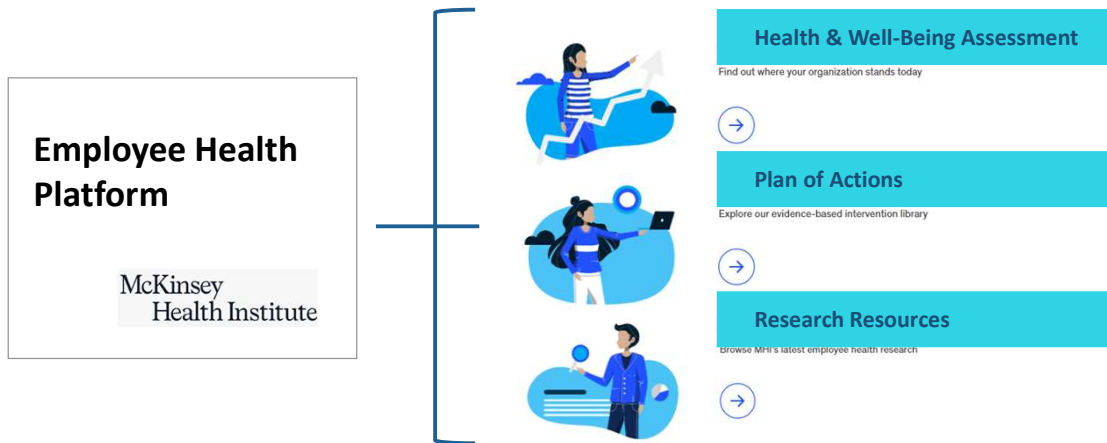

3

Resources can be reallocated to create value

40

McKinsey's **Employee Health Platform** offers the solution!

Employee Health Platform enables organizations to **deploy the assessment tool** to measure the health and well-being of employees, **implement recommended interventions**, and **access global research insights**.

41

Future Use Case:
Embedding well-Being into Employee Life Cycle

42

Luka Babic
Founder

“To design a successful people strategy, leaders must think about the **experience** they create for your employees in **employee life cycle**.

Measuring the employee life cycle provides contextualized, data-driven insights that help create a positive and **continuous employee experience**, leading to employee well-being.”

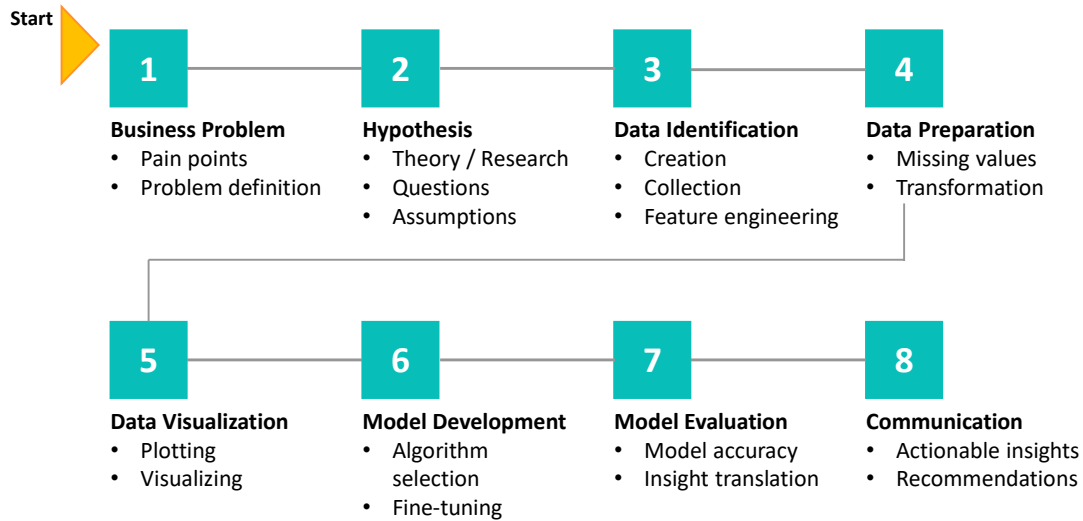

43

Opportunities to embed Well-Being into Employee Life Cycle can be identified by leveraging People Analytics

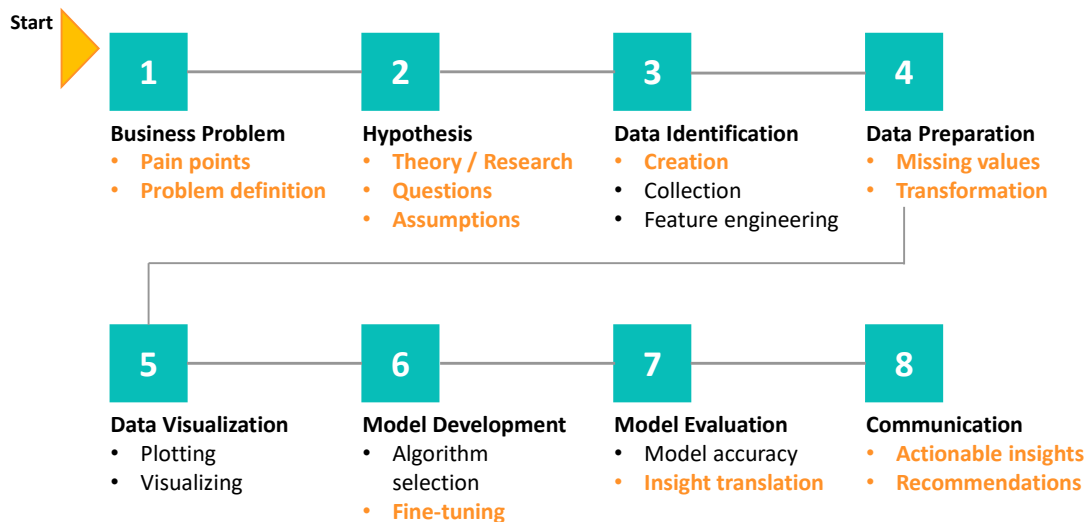

44

Data-Driven Well-Being Professionals play a critical role in People Analytics Project Life Cycle

45

Opportunities to add values in People Analytics Project Life Cycle are highlighted in Orange

46

Domain Knowledge is becoming more critical as it is used to develop AI-applications in the new era of AI

“**Generative AI** promises to empower every kind of business, including smaller companies and those that have historically lagged in tech maturity,” according to Andrew Ng.

47

Call to Action

3 Things to **Activate** to prepare for the **Future Well-Being Leader / Professionals**:

- 1 Future-proof by learning People Analytics
- 2 Future-proof by learning Artificial Intelligence
- 3 Elevate well-being by joining the Movement

48

Why Join the **Movement**?

Culture is like the **wind**

Systematic approach to **Culture Change** needs to happen through a **Movement**, not a mandate.

- Culture is a collective reflection of **believe, norms and habit**; “how things are done around here”
- Every culture in organization is different
- Significant change can be achieved from movement

49

NOW WHAT?

We live in a world of uncertainty today

Abraham Lincoln
16th President of the United States

“The best way to predict the future is to create it.”

51

Humans will live longer than **Most Big Companies**. We must take ownership of our own professional development.

75%

Of S&P 500 companies will **disappear by 2027**.

< 18 Years

Is the **average life-span** of S&P companies.

McKinsey
& Company

52

Call to Action

Disrupt ourselves (instead of being disrupted) by creating our own path!

- 1 Focus on creating a Career Portfolio
- 2 Start small by leveraging available Resources
- 3 Keep the Momentum and Celebrate Small Wins

53

Best Practices shared by Leading Experts in People Analytics

Business Acumen	Understand the business to offer Insights that Business Cares About
Strategic Relationships	Establish strategic relationships early to proactively identify Business Problems
Demand	Show early wins with ROI to build a pipeline of future work
Activation	The future should be Actionable . Knowing is only part of the journey.
Success Factors	Think Change Activation early and gain Engagement from Stakeholders
Insights	Embed insights to Strategy and Tactics to make better decisions and empower people
Design Principles	Apply Design Principles when telling a story with data (e.g., less is more)
Survey Questions	If you are Not Ready to Act on participant's responses, Don't Ask Questions

Lecturer and Guest Speakers, People Analytics Course offered through Stanford Continuing Studies in Spring (Apr 18 – Jun 6, 2023)
